PROJECTS

BRAIN TUMOR DETECTION

- brain tumor detection is done through the application of Machine Learning and Deep Learning algorithms. When these systems are applied to MRI images, brain tumor prediction is done very quickly and greater accuracy helps to deliver treatment to patients

GYM WEBSITE USER INTERFACE

- In this project we created Gym Website front page using Html and CSS. I Created a home page section which includes phone number and address and other information.

RESTAURANT WEBSITE USER INTERFACE

- In this project we created Restaurant Website front page using Html and CSS. I Created a home page section which includes phone number feedback and address and other information.
